

Product Information

Ultrasonic hand welding set HandyStar

- Welding, Spot welding, Riveting, Embedding, Cutting
- Converter changing (quick change)
- Power 1000 W
- Frequency 35 kHz

Ultrasonic

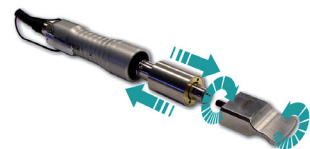

Product Information

Ultrasonic hand welding set HandyStar

Technical characteristics

Generator SG3510 Handystar

Frequency	35 kHz
Power	1000 W eff.
US-welding time	0.1-3 sec
Start up time	50% max. at 1000 W
Weight approx.	3.3 kg
Dimensions WxDxH	290 x 310 x 105 mm

Handgun UHG

Converter	SE3512
Weight approx. (with sonotrode and converter)	1000 g
Dimensions L x Ø	190 x 48 mm
Interface stud sonotrode/converter	M8 x 25

Part numbers

Set HandyStar 1000W 35kHz 230V	910 299 000
Set HandyStar 1000W 35kHz 115V	910 299 100
Replacement converter SE3512	921 245 010
Interface stud sonotrode/converter	608 688 000

Samples of Sonotrodes
