In addition to many standard machines, also tailor-made machines

With more than 30 years of experience, Alpha has the necessary knowledge to always work out an appropriate solution.

At Alpha, we put the customer's needs first and combine efficiency with craftsmanship.

Think of:

- deviating sizes
- ergonomic solutions
- integration into existing machinery
- high load capacities

Production always starts after approval of technical drawings and specifications so that a customer-specific design can be realised together.

Customisation: roller system with reinforced baskets

Options: inclusive fabric filter system with pump
